

Frank Amato, DC, DABCO
Clinic Owner
Chiropractic Orthopedist, ART Certified

Rich Semel, DC, DACBSP
Chiropractic Sports Physician

Insurance Verification

Our office verifies your health coverage for you with your insurance company via telephone. We will try to determine your portion or the (co pay) you are responsible for from what the insurance company tells us on the phone, but please note: when your benefits are quoted, the insurance company always informs us that "telephone verification of benefits are not a guarantee of payment" and "actual payment will be determined after a bill is received." Also, please be aware that insurance companies have a very high clerical error rate and often the benefits quoted to us over the phone differ from what we receive from them after we send them a bill.

Again, our office will try our best to determine what dollar amount you are responsible for with the information provided to us by your insurance company over the telephone. Please keep in mind that the amount originally determined by be subject to change after we receive the first correct payment from you insurance company.

If your insurance company does not pay us within 60 days, we will bill you for the services rendered, and ask that you seek reimbursement from your insurance company.
